Horana South, Western Province, Sri Lanka

Summary

I'm an AI student at the University of Moratuwa, interested about robotics, autonomization, neuroAI, Brain Computer Interaction and also quantum computing. I’m eager to explore how insights from neuroscience, quantum computing and philosophy can enhance Artificial Intelligence.

My goal is to pursue a PhD in AI specializing in AI-driven robotics and computational neuroscience. I aspire to contribute to both academic research and industry innovation at leading AI labs.

I’m currently building my knowledge and skills in AI and looking forward to gaining hands-on experience through projects and research.

Feel free to connect if you're interested in AI research, robotics, neuroscience or quantum computing.

Experience

Sri Lanka Association for Artificial Intelligence - UOM Student Chapter

SLAAI Student Chapter | Committee Member - Industry Relations

August 2026 - Present (3 months)

University of Moratuwa

Education

University of Moratuwa

Bachelor of Science - BSc, Artificial Intelligence · (May 2025 - May 2029)

Taxila Central College

Physical Sciences
